ELIXIR Meeting, 4-5 November 2013

Lightning Talk
[Annette McGrath]
1. What are the training needs and what are you doing to address these needs?

• Upskilling biologists to enable them to reconnect with their data
• Skills in the use of tools and resources
• Understand the analysis methods that they or others will apply to their data
• Some basic statistics
• For some; learn the command line or programming languages (R, python) and best practices in programming
• For bioinformaticians – how best to make use of HPC
2. What can you offer at a Pan-European level that is sustainable?

- I am not located in Europe 😊
  - BUT
    - I would be very happy to share any material that we develop
    - Share our experiences
    - Contribute and participate where we can
3. What is your vision for a Pan-European, over-arching training strategy?

• From a wider world-view
  – Connection and synergy with other training initiatives
